

## INFORMATION 2021

### The 10th International Conference on INFORMATION (Online)

#### GENERAL CHAIR

**Lei Li**

*Hosei University, Japan*

#### ORGANIZING CHAIRS

**Ryuichi Ashino**

*Osaka Kyoiku University, Japan*

**Xiang Li**

*Beijing University of Chemical  
Technology, China*

**Kang Yen**

*Florida International University, USA*

#### PROGRAM CHAIRS

**Chih-Cheng Hung**

*Kennesaw State University, USA*

**Tai-hoon Kim**

*Sungshin W. University, Korea*

**Hiroshi Ohnishi**

*Keio University, Japan*

#### CONFERENCE OFFICE

E-Mail: [office@information-iii.org](mailto:office@information-iii.org)

**March 6 - 8, 2021, Hosei University, Tokyo, Japan**

**Hosted by International Information Institute**

#### BACKGROUND AND AIMS

The most distinctive feature in the development of modern sciences and technologies is that various sciences, which were classified so far according to their research objects and methodologies, penetrate and combine with each other gradually. Therefore, many new disciplines and technologies were born from boundary areas of those existing sciences. Today, from classical sciences to modern technologies, almost all sciences and technologies are depended on each other so closely that they cannot exist and grow independently and have to grow in harmony with each other. There is an abstract, general and cross-cutting concept that concerns all scientific methodologies and sciences, it is "Information". The International Conference on Information is an interdisciplinary international conference series. It provides a forum for all scientists and technicians throughout the world to exchange scientific information such as original ideas, research methods and research results related to all scientific fields. Information'2021 will be an online meeting by Zoom, including keynote addresses, invited speeches, special workshops, contributed presentations (Lectures or Posters). The conference proceeding will be published by International Information Institute and available to delegates at the time of registration. And the papers presented in the conference will be selected as regular papers for publication in INFORMATION: An International Interdisciplinary Journal. The keyword "Information" is being permeated to all fields in sciences and technologies. This conference reflects this change by choosing a broad scope with covering the following areas: (1) Mathematical and Natural Sciences, (2) Management and Social Sciences, (3) Agriculture and Engineering, (4) Health and Life Sciences.

#### SPECIAL WORKSHOPS

A special workshop will include over 5-10 speakers focusing on a single topic. The organizer of a special workshop invites the speakers and decides on the topics to be addressed. Proposals will be sent to the conference office.

#### CONTRIBUTED PRESENTATION

Please submit a paper with 4 pages in the Conference MS-Word or PDF version to the conference office.

#### IMPORTANT DATES

Special Workshop Proposals: 31 December, 2020

Contributed Paper Proposals: 10 January, 2021

Notification of Acceptance: 20 January, 2021

Camera-Ready Manuscript (4 Pages): 31 January, 2021.

Early Registration: 31 January, 2021
